Adefila Samuel Adeyemi

PRODUCT DESIGNER

adefilasamuel929@gmail.com | +2348109841877 | Ibadan, Nigeria | LinkedIn · Portfolio

SUMMARY

Product Designer with experience owning end-to-end design across mobile and web products. Skilled in interaction design, prototyping, and user research, shipping features that solve real problems for real people.

EXPERIENCE

Framer Developer, Klimt and Design *Sep 2025 – Aug 2026*

- Built and shipped 8+ client websites in Framer, translating Figma design files into fully responsive, production-ready experiences — delivering projects an average of 20% ahead of schedule across 6-month freelance engagement.
- Reduced design-to-deployment turnaround by ~30% by establishing a reusable Framer component library, cutting build time per site from ~3 weeks to under 2.

UI/UX Designer & Project Manger, Trust-Tai Web Agency *Oct 2024 – Sep 2025*

- Led cross-functional teams of 4-7 across UX design, branding, and development, delivering solutions for 10+ clients simultaneously.
- Managed client communications and project timelines across 3–5 concurrent engagements, maintaining a 95% on-time delivery rate throughout the contract.
- Introduced agile ceremonies (stand-ups, sprint planning, retrospectives) and Trello-based workflow structures that reduced cross-team miscommunication by ~30% and cut average project handoff time by 2 days.

Framer Developer, Hitpay *Nov 2024 – Jul 2025*

- Built high-fidelity prototypes used directly in user testing and developer handoff, reducing back-and-forth between design and engineering.
- Collaborated with design and product teams to improve UX across core payment tools.
- Streamlined design-to-development workflow, resulting in faster iteration cycles across releases.

UX Designer, Virvly *Aug 2025 – May 2026*

- Designed the end-to-end UI for Virvly's startup app, covering core user flows from onboarding through primary feature use. (Part-time / Contract)
- Designed and developed the public waitlist website in Framer, taking it from initial concept to a live, deployed page.

Product Manager & Lead Product Designer, BookedEZ *Sep 2023 – Aug 2025*

- Owned end-to-end redesign of core booking flows, improving conversion through structured UX changes grounded in customer needs.
- Conducted user research, wireframing, and usability testing to turn fuzzy problems into actionable design requirements across product iterations.

EDUCATION

Bachelor's degree, Civil Engineering *2024*

Federal University, Oye Ekiti
